Notes

- (1) To factory configure for 240 VAC, place an E at the end of the part number (i.e.: XXYY-ZZZZ-E).
- (2) To order the CE configuration, place CE at the end of the part number (i.e.: XXYY-ZZZZ-CE) and add \$50.
- (3) To calculate the track adder, round up A-Dim to next ft. (30 cm) and multiply by \$10 for PP or \$40 for PVDF. Dims may be spec'd in 1/2" (1.3 cm) increments.
- (4) To factory configure for 240 VAC, place an E at the end of the part number (i.e.: XXYY-ZZZZ-AA-E).
- (5) To order the CE configuration, place CE at the end of the part number (i.e.: XXYY-ZZZZ-AA-CE) and add \$50.
- (6) To calculate the track adder, round up A-Dim to the next foot (30 cm) and multiply it times \$20. Dimensions may be specified in 1/2" (1.3 cm) increments.
- (7) To factory configure for 240 VAC, place an E at the end of the part number (i.e.: XXYY-ZZZZ-AA-BB-CC-E).
- (8) To order the CE configuration, place CE at the end of the part number (i.e.: XXYY-ZZZZ-AA-BB-CC-CE) and add \$50.
- (9) To calculate the guide adder, round up the A-Dim to the next inch (2.5 cm) and multiply it times \$10. Dimensions may be specified in 1/2" (1.3 cm) increments.
- (10) To special order 25' or 50' of cable, place the cable length at the end of the part number (i.e.: XXYY-ZZZZ-25).
- (11) For PP, add \$20 for 25' and add \$40 for 50' of cable. For PVDF, add \$75 for 25' and add \$150 for 50' of cable.
- (12) For PP, add \$20 for 25' and add \$40 for 50' of cable. For PFA, add \$75 for 25' and add \$150 for 50' of cable.
- (13) For PP, add \$20 for 25' and add \$40 for 50' of cable.
- (14) To factory configure for 240 VAC, place an E at the end of the part number (i.e.: XXYY-ZZZZ-E).
- (15) To order the CE configuration, place CE at the end of the part number (i.e.: XXYY-ZZZZ-CE) and add \$50.
- (16) To determine the shipping box size, add 8" to the length.
- (17) The weight of these products depends on each separate component.
- (18) To calculate the length adder, round up the A-Dimension to the next foot (30 cm) and multiply it times \$5 for PVC, \$10 for PP or \$40 for PVDF.
- (19) Dimensions may be specified in 1/2" (1.3 cm) increments.
- (20) Configuration includes Fob (LI99-1001).
- (21) To special order cable, place the cable length (feet/m) at the end of the part number (i.e.: LU30-5003S-10'). Add \$16 per foot of cable.
- (22) Specify the A, B and C (optional) Dim's at the end of the p/n. To calculate the guide adder, round up A-Dim to next inch (2.5 cm) and multiply it times \$11.
- (23) To calculate the extension adder, round up A-Dim to the next foot (30 cm) and multiply it times \$40. Dim. may be specified in 1/2" (1.3 cm) increments.
- (24) To calculate the stem adder, round up A-Dim to next ft. (30 cm) and multiply by \$40 for PVDF. There is no charge for the first foot.
