HEAVY DUTY SERIES "BG"

SERIES "BG" reels feature rugged steel construction with black polyester baked finish, reinforced hanging bracket with forged clevis for ceiling mounting and extra holes for safety chain attachment. Spring is permanently lubricated and provides constant tension, adjustable for balancing tool in normal working zone (6 - 18 in. [152-457mm]). Cable is 920 lb(414kg) test 0.09"(2.3mm) dia. 7 x 7 strand galvanized steel aircraft cable nylon covered to 0.12"(3.0mm) O.D. Includes safety tool clip and adjustable cable stop.

LOCKING MODELS include all features listed above plus a positive ratchet lock mechanism to allow locking of the cable at a specific height. A slight pull on the cable releases the lock which functions like a window shade. Lock feature may be disengaged externally when constant tension is required.

TAPERED DRUM TOOL BALANCERS

DRUM COMPENSATES FOR CHANGING SPRING RATE

Heavy-duty construction. Tapered drum compensates for changing spring rate. Direct spring powered...no motors or expensive gear trains to break or wear out.

Series "BH" Tapered Drum tool balancers keep tools within reach and reduce damage to tools by suspending them out of the way above the work surface. Risk of repetitive motion injury is reduced because only a light, downward force is required to place the tool in proper operating position. As the tool is lowered, and the spring is wound more tightly, the effective drum diameter increases to compensate for the increased force. Thus, when properly adjusted, the tapered drum keeps the tool at the positioned height.

Features include:

- Rugged die cast aluminum housing.
- Both top and bottom hooks have spring-loaded safety latches.
- Heavy duty steel wire rope.
- Automatic safety catch...prevents free-spooling if springs fail (not available on BH-02/BH-05).
- Easy adjustment with everyday tools from outside housing.
